In Memoriam.

Hon. Edwin Upton Curtis, Police Commissioner for the city of Boston, died at his home, 131 Bay State Road, at 2.30 P.M., March 28, 1922, of valvular heart trouble.

Mr. Curtis was born in Roxbury, Mass., March 26, 1861. Receiving his early education in the Roxbury grammar and Latin schools and also in a private school at Farmington, Me., he entered Bowdoin College in the fall of 1878, graduating in the class of 1882 with the degree of A.B. In 1885 he received the degree of A.M., and in 1914 the degree of LL.D. from the same college. From 1897 to 1912 he served as overseer of the college, and as trustee of the college from 1912 until his death.

Mr. Curtis was admitted to the Suffolk Bar in 1885, and formed a law partnership with William Gardner Reed under the firm name of Reed & Curtis.

He early took an interest in politics and became Secretary of the Republican City Committee in 1888. In 1889 he became city clerk of Boston, and held that position two years, after which he resumed the profession of law and built up a large practice. In 1894 he received the Republican nomination for mayor and was elected by a plurality of more than 2,500.

In 1896 he became a member of the Metropolitan Park Commission and served in that office until Oct. 1, 1897, when he resigned to become the Republican candidate for mayor. He was reappointed a member of the Metropolitan Park Commission on May 26, 1898, and served in that office continuously under successive reappointments until his appointment as Police Commissioner. In 1906 he was appointed Assistant United States Treasurer in Boston, and held that office until 1909, when he became collector of the Port of Boston, which position he occupied for four years. He was elected and served as a delegate to the Constitutional Convention of 1918 and 1919.

On the death of Police Commissioner Stephen O'Meara, Mr. Curtis was appointed to that office by Governor McCall, and on Dec. 30, 1918, took the oath of office.

The Commonwealth of Wassachusetts

REPORT.

Headquarters of the Police Department, Office of the Police Commissioner, 29 Pemberton Square, Boston, Dec. 1, 1922.

To His Excellency Channing H. Cox, Governor.

Your Excellency:—As Police Commissioner for the city of Boston I have the honor to present, in compliance with the provisions of chapter 291 of the Acts of the year 1906, a report of the Police Department for the year ending Nov. 30, 1922.

On March 28, 1922, the Police Department suffered a great loss in the sudden and unexpected death of the Hon. Edwin U. Curtis, Police Commissioner for the city of Boston. Despite great opposition and while not in the best of health, he pursued a course which he believed to be for the best interests of Boston, and produced a young, active and vigorous Police Department, the equal of any police force in any municipality in the United States. Untiring work in the building up of a practically new police force for the city of Boston gradually undermined his health, and after many years of valuable service to his city, State and country he was suddenly stricken when about to reap the reward of his labor.

On April 3, 1922, I assumed control of a Police Department which had then been raised to a high degree of efficiency through unsparing and unselfish sacrifice on the part of Mr. Curtis.

RELATIVE TO THE LIQUOR PROBLEM.

The enforcement of the prohibition amendment to-day is of as great and vital importance as it was when the prohibition amendment went into effect three years ago. The action of the electorate of Massachusetts in the State election on November 7 in rejecting chapter 427 of the Acts of 1922, which was an act to carry into effect, so far as the Commonwealth of Massachusetts was concerned, the Eighteenth Amendment to the Constitution of the United States, has a tendency to impede and hamper the effective enforcement by the Police Department of this prohibition amendment.

Under General Laws, chapter 138, section 75, a police officer may arrest without warrant "any person whom he finds in the act of illegally . . . transporting . . . intoxicating liquor." There is, however, no statute now defining the offense of illegally transporting intoxicating liquor, the existing provisions of law having been omitted when chapter 138 was enacted. If, therefore, those provisions as to transportation, as found in Revised Laws, chapter 100, and subsequent acts in addition and amendment thereto, are put back upon the statute books, with such changes as are necessary in view of the present situation, it will enable the police substantially to curtail the activities of the so-called "bootlegger."

To-day in Boston we find ourselves in an unfortunate situation, with numerous appeals from the district courts of convictions of violations of the liquor laws increasing the size of the docket of the Criminal Superior Court for Suffolk County, and the district attorney for that county practically forced to dispose of these cases by fines, although many of them are appeals from prison sentences of the lower court. Experience shows that trial by jury of these liquor appeal cases is not successful. Jail sentences are very rarely given in the State court for violations of the liquor law.

For the year ending Nov. 30, 1922, this Department made 359 prosecutions in the State court and 17 in the United States court for violations of the various drug laws, and for the same period, not including arrests for drunken-

ness, 3,371 prosecutions in the State court and 93 in the United States court, a total of 3,464 cases for violations of the liquor law, as compared to a total of 2,199 cases prosecuted for violations of the liquor law for the year ending Nov. 30, 1921.

Relative to the Carrying of Guns, Pistols and Concealed Weapons.

In the matter of granting permits for the carrying of firearms, the law which our Legislature passed last year in order to safeguard the citizens of this Commonwealth from irresponsible persons carrying guns and pistols is being circumvented and evaded, and unless immediate steps are taken to have Congress pass a uniform act restricting and limiting the sale and advertisement for sale of revolvers and weapons of self-defense, small headway in the matter of preventing vicious and irresponsible persons from obtaining deadly weapons will have been effected, inasmuch as mail order houses with places of business outside of this Commonwealth are offering for sale firearms absolutely without restriction.

Under the present system in this State of granting permits to carry firearms, an unnaturalized person can obtain a permit to carry a pistol or revolver. In my opinion no such permit should ever be given to an unnaturalized person, although it must be granted that many of our unnaturalized residents are of a fine type. In addition, I am of the opinion that under no circumstances should a permit ever be granted to a minor, or to any person who has been convicted of a felony, or as a user or purveyor of drugs. Under the present law it is a criminal offence to sell a firearm to a minor under fifteen years of age. This law should be changed so that it is a criminal offence to sell, offer to sell, or furnish firearms to a minor.

I believe that a statute should be passed by the next Legislature punishing a person who commits or attempts to commit a crime, while armed with a firearm and with no permit to carry the same, with imprisonment for not less than two and one-half years nor more than five years in the State Prison in addition to the sentence given for the punishment of the crime for which he was arrested; and also that there should be a statute passed that if any person while armed with a pistol or revolver with no permit to carry the same either commits or attempts to commit a felony, the fact that he had no permit to carry the revolver or firearm should be considered as *prima facie* evidence of his intention to commit the felony for which he was apprehended.

In my opinion to check the lawlessness, viciousness and crime which are sweeping the country, strenuous effort should be made to make it impossible for a person of vicious or irresponsible temperament to obtain a firearm, and in addition it should be made so serious a crime to carry a firearm without a permit that there will be considerable hesitancy on the part of any individual to carry a firearm unlawfully.

In relation to the law of carrying concealed weapons, this law should be changed so as to prevent any person from carrying a pistol or revolver concealed in any vehicle without a permit for such firearm, and a more severe punishment should be given for a violation of the same.

Traffic.

The problem of the orderly regulation of automobile traffic in the city of Boston presents a most serious question. When the yearly increase in the number of automobiles, both for pleasure and business purposes, is compared with the permanency of the width of the streets of Boston, the irrefutable conclusion is that there is an imperative need of an increase in the number of policemen for traffic duty, and the creation of suitable sites for parking purposes. Once the parking problem in Boston is solved, congestion of traffic will be eliminated.

Regulation of pedestrian traffic is as important a problem and requires as much intensive study as the matter of guiding and directing vehicular traffic.

During my incumbency in office I have been the recipient of numerous demands from merchants, school authorities and other sources for traffic officers at various crossings in

order to safeguard pedestrians using the same. I regret that I have been unable to comply with these requests in many instances. I have had several conferences with His Honor Mayor Curley relative to an increase of patrolmen in this Department to the number of at least one hundred. and he agrees with me that the situation as regards traffic conditions alone warrants such an increase, and that the only reason why he cannot grant my request at once is because of the financial condition of the city. At one of these conferences it was suggested that if the cities of the Commonwealth could, by an act of the Legislature, secure part of the moneys now collected from registration fees or from a tax on gasoline, if such a tax is imposed, a part of such funds thus collected could be applied to the cities and towns of the Commonwealth to care for traffic conditions. In the event of such legislation being passed, the mayor has signified his willingness to concur with me in my recommendation. I am of the opinion that this request has great merit and that dangerous crossing points should be covered by traffic officers. They are crossed and recrossed daily by school children, and this Department should have a sufficient number of men to properly safeguard them. This is a service which is of such vital importance that the citizens of Boston can rightfully demand that it be granted to them.

The creation of a Traffic Court to relieve the congestion in the criminal session of the Municipal Court for the city of Boston, caused by the ever-increasing number of automobile cases, I believe to be advisable. Such a court in my opinion could effectively and speedily dispose of cases of this nature at a weekly session, and accordingly would be of great benefit to the Police Department, inasmuch as it would eliminate the present necessity of requiring many police officers being absent from their posts several days each week.

RELATIVE TO HOUSING ACCOMMODATIONS.

Since I have assumed office I have made a personal inspection of every police station and house of detention in Boston under my control. As a result of this investigation I have caused repairs to be made in many of the buildings,

including interior and exterior painting, installation of shower baths, thus eliminating old-fashioned bath tubs, replacing old and worn-out heating plants, and, in general, have done much work making for better sanitary conditions. I have also taken up this matter with the mayor, and he has agreed to allow me \$500,000 next year outside of my regular appropriation to continue this much needed line of improvement in the conditions of police buildings.

The elimination of cells in the basement of station houses is a matter which I also have taken up with the municipal authorities, and part of the above-mentioned appropriation will be used for this purpose.

The new police station for Division 8, Harbor Police, situated on Commercial Street, is nearly completed and will probably be ready for occupancy in the early spring, thus providing more roomy and sanitary quarters for that Division.

In the matter of the new police building to be constructed on the land purchased on Sears Street, new bids have been received on the same, and I have every reason to expect that with the co-operation of the mayor and city council that this new building will soon be under construction. This building when completed will house Division 2 and the Traffic Division, with offices for the Property Clerk.

In addition, the mayor has signified to me his desire to have taken by right of eminent domain the building now occupied by the Police Commissioner and the Superintendent of Police in Pemberton Square, and erecting in place thereof a modern office building to provide suitable accommodations for these departments which at present are congested and crowded in old-fashioned and ill-adapted buildings.

Very respectfully, ·

HERBERT A. WILSON,

Police Commissioner for the City of Boston.

Arrests.

The total number of persons arrested, counting each arrest as that of a separate person, was 77,653 as against 72,161 the preceding year, being an increase of 5,497. The percentage of decrease and increase was as follows:—

	$P\epsilon$	er Cent.

Offences against property committed without violence	Decrease,	15.13

Offences against the license law		Increase, 52.51
Offences against chastity, morality, etc.		Decrease, 10.63
Offences not included in the foregoing		Increase, 8.49

There were 10,786 persons arrested on warrants and 49,372 without warrants; 17,495 persons were summoned by the court; 73,838 persons were held for trial; 3,815 were released from custody. The number of males arrested was 72,572; of females, 5,081; of foreigners, 29,078, or approximately 37.44 per cent; of minors, 7,391. Of the total number arrested, 20,504, or 26.40 per cent, were nonresidents. (See Tables X, XI.)

The average amount of fines imposed by the courts for the five years from 1918 to 1922, inclusive, was \$159,841.56; in 1922 it was \$236,215.50, or \$76,373.94 more than the average.

The average number of days' attendance at court was 36,051; in 1922 it was 42,481, or 6,430 more than the average. The average amount of witness fees earned was \$10,529.70; in 1922 it was \$13,839.32, or \$3,311.62 more than the average. (See Table XIII.)

Drunkenness.

In the arrests for drunkenness the average per day was 103. There were 6,656 more persons arrested than in 1921, an increase of 21.48 per cent; 25.12 per cent of the arrested persons were nonresidents, and 39.50 per cent were of foreign birth. (See Table XI.)

Bureau of Criminal Investigation.

The "identification room" now contains 62,960 photographs, 54,342 of which are photographs with Bertillon measurements, a system used by the Department for the past twenty-three years. In accordance with the Revised Laws, chapter 225, sections 18 and 21, we are allowed photographs with Bertillon measurements taken of convicts in the State Prison and reformatory, a number of which have already been added to our Bertillon cabinets. This, to-

gether with the adoption of the system by the Department in 1898, is and will continue to be of great assistance in the identification of criminals. A large number of important identifications have thus been made during the year for this and other police departments, through which the sentences in many instances have been materially increased. records of 615 criminals have been added to the records in this Bureau, which now contains a total of 43,457. number of cases reported at this office which have been investigated during the year is 26,927. There are 37,032 cases reported on the assignment books kept for this purpose, and reports made on these cases are filed away for future reference. The system of indexing adopted by this Bureau for the use of the Department now contains a list of records. histories, photographs, dates of arrest, etc., of about 190,000 persons. There are also "histories and press clippings", now numbering 8,555, made by this Bureau, in envelope form, for police reference.

The finger-print system of identification which was adopted in June, 1906, has progressed in a satisfactory manner, and with it the identification of criminals is facilitated. It has become very useful in tracing criminals and furnishing corroborating evidence in many instances.

The statistics of the work of this branch of the service are included in the statement of the general work of the Department, but as the duties are of a special character the following statement will be of interest:—

Number of persons arrested, principally for felonies	2,675
Fugitives from justice from other States, arrested and delivered	
to officers from those States	51
Number of cases investigated	26,927
Number of extra duties performed	2,025

Number of years' imprisonment imposed by court, 167 years, 111	nonths.

The amount of property stolen in and out of the city which was recovered by the Boston police was \$1,616,819.99, as against \$1,627,331.08 last year, or \$10,511.09 less.
